About This Game

Husk is a down-to-earth survival-horror, about harm, pain and seeking forgiveness in Shivercliff, a town abandoned for unknown reasons.

A tribute to classical thrillers like Silent Hill or Twin Peaks.

It's 1995, you're Matthew Palmer and you've just woken up after a train crash. There's nobody around you. Especially, there's no trace of your wife and daughter.

The only sign indicating where you are says:
Welcome to Shivercliff.

Features:

- Down-to-earth storyline touching problems of violence and alcohol addiction
- Immersive narration
- 90's climate with a lot of references
- Inspired by titles like Silent Hill or Alan Wake
- Different locations of Shivercliff town and its surroundings

-
- Different types of monsters and boss fights
 - Classical survival horror
 - Dedicated soundtrack created by Arkadiusz Reikowski
 - 4-5 hours of gameplay
 - Powered by Unreal Engine 4

I thought it was a good game. Atmosphere and mood was very good. Music, sound, and graphics were good. I bought the game because it looked like a dark mystery and it has Developer/Publisher connections to Inner Chains and Kholat which I enjoyed both of those games. I went into the game with no spoilers. I only looked at a few screen shots and glazed over the store page description. The only two negatives I have with the game is the whiny voice of the father (it got on my nerves) and the needless injection of bad language into the dialogue. But that is somewhat of a norm for many games these days. I'm glad I bought this game. I enjoyed it.
